our diary the events that
with the passing of years
will turn into treasured
memories.*

. . . You are certain to receive a friendly smile as well as the proper translation of Caesar. This is due to the excellent leadership of Latin's own Goddess of Wisdom, Miss Alice A. Hackman. If you have time, you might jaunt down to the English department where once again you can observe Miss Hackman instructing a class with her unlimited range of rhetorical knowledge. Due to the fact that she is well versed in many fields and has given of her capabilities since 1931, we feel more than honored in dedicating THE BUBBLER to our Miss Hackman. Her guidance and amicable attitude have directed many to the finer aspects of scholarly achievement.

District Superintendent

Mr. Omar Seals

Dear Diary,

I am writing this entry, Dear Diary, to ask,
 For a senior class who will lighten my task,
 A class that will run a good intellectual race,
 One that will set a high moral pace,
 That underclassmen will envy and strive to ape,
 Whose curiosity and enthusiasm will leave teachers agape,
 I would like them, Dear Diary, to ask questions galore,
 To shun conformity as a wearisome bore,
 Could this be the Class of 62-63?
 This entry is closed; we will wait and see.

Sincerely,

Omar Seals
 District Superintendent

Administrative Assistant

Mr. Carl Guerriero

"You're sick, you say?"

In checking a diary I kept one summer during my boyhood, an incident came to mind which I would like to pass on to this year's graduates.

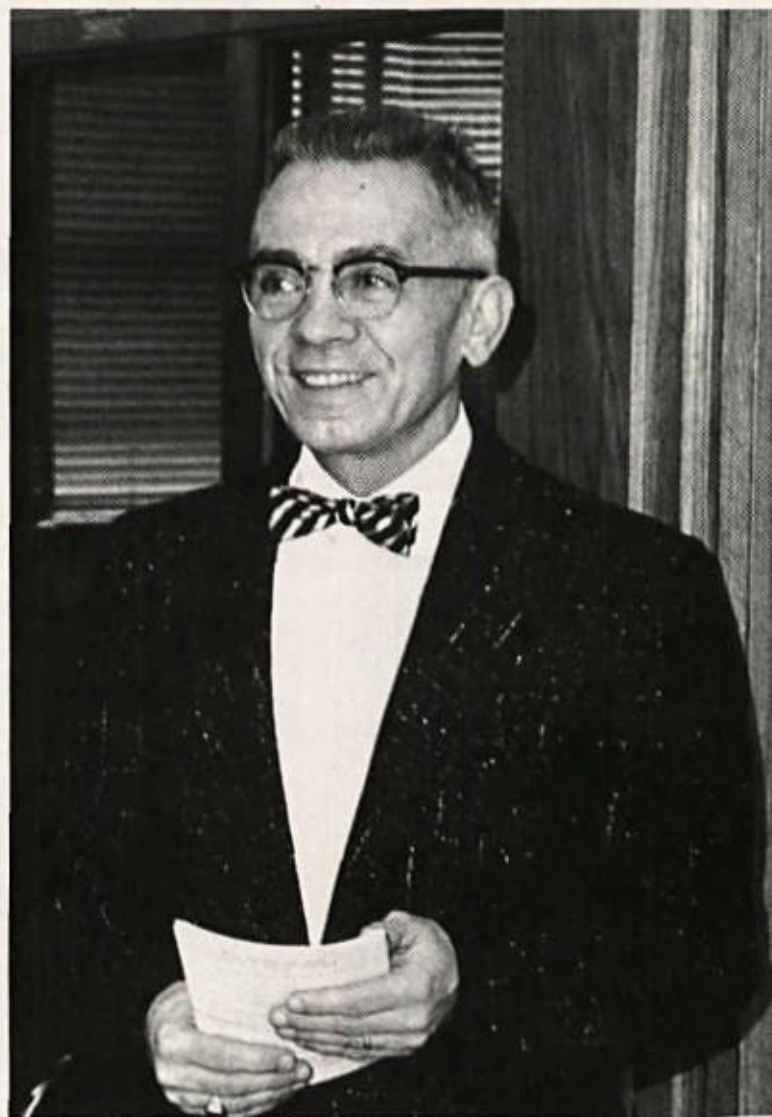

It was my duty as a member of a Boy Scout Camp Staff to keep a supply of firewood cut for the cook to use in preparing our meals.

Once when I complained the axe was not sharp enough, the old cook said, "It isn't how sharp is the axe, it's how good is the steel. Good steel holds its edge and keeps on cutting. Now then," he said, "How good is your steel? Have you got what it takes to keep swinging?"

So it goes with the stockpile of life; we add one stick -- one exam -- at a time. When you have built it, you will have something quite unlike my woodpile. No matter how much you use it, you will never exhaust the supply. Have you got what it takes to keep swinging?

Dear friends,

I have been your exchange student for this year, and I openly tell you that I have really enjoyed your school. I have been pleased to learn about your school activities and participate in them. I was delighted with club meetings, school trips, and visual aids. Football and wrestling have been new for me, but I have found them very interesting.

I have done my best to be a good representative of my country, and I hope that some of you some day visit Spain.

I am very grateful to all of you for your friendliness and helpfulness during the time I have attended your school and enabling me to have the great experience of being your exchange student.

OFFERS CONGRATULATIONS

TO THE CLASS OF 1963

You are now leaving school and going out into the world. Some are going on to college. Many of you know what you intend to do; others are undecided.

Here are some figures for your information concerning the Dairy Industry. Cumberland County had an income of \$9,200,000 from milk in 1961.

Wages which milk dealers and processors paid to employees in Cumberland County were over \$1,200,000.

The Dairy farmers from this county produced 80,000,000 quarts of milk valued at \$8,000,000.

This income from milk kept bells ringing in service stations, grocery stores, insurance offices and all other types of businesses.

This income may have helped your mothers and fathers to send you through school.

Because of its great importance to our national health, the Dairy Industry is recognized "as one of the nation's great resources."

As men and women of the future, it will be your privilege to preserve the greatest of all heritages . . . The American Way of Life. Be grateful for and proud of your opportunities. Consider the Dairy Industry as a way of life with a future for you.

Good luck and best wishes for success in whatever venture you are about to undertake.
